

INSTALLATION & USER
MANUAL

SMART CALENDAR

START APPLICATION

- We assume that you have already installed Smart Calendar Application from Google Play Store.
- Once you install it, Smart Calendar will create icon on your phone home screen as seen.
- On clicking that icon will open the Smart Calendar Application itself.

HOME

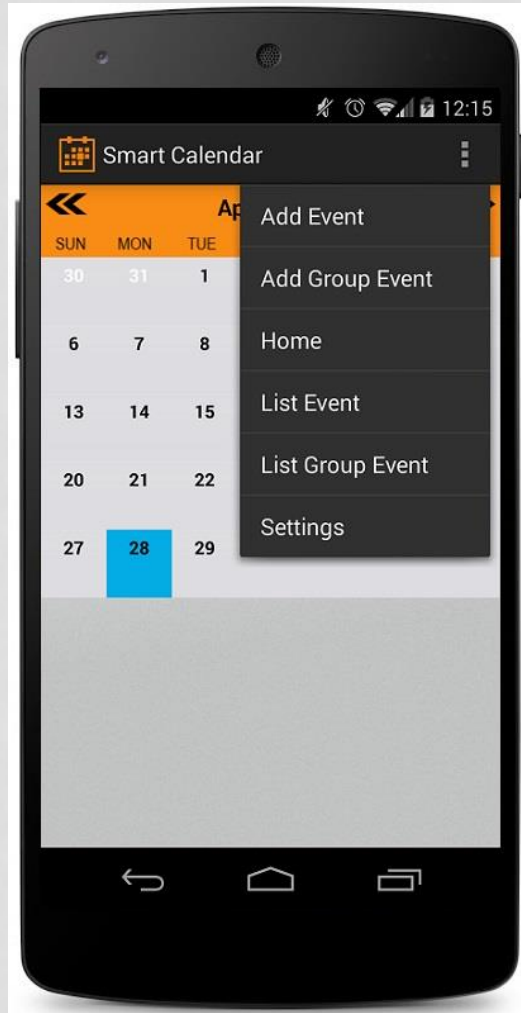

- Home screen displays the Grid Calendar View which makes easy to navigate between months.
- If there is an event, Day will display pin suggesting there is something on that day.
- Each Day opens the Day view which can be seen on next page.

DAY VIEW

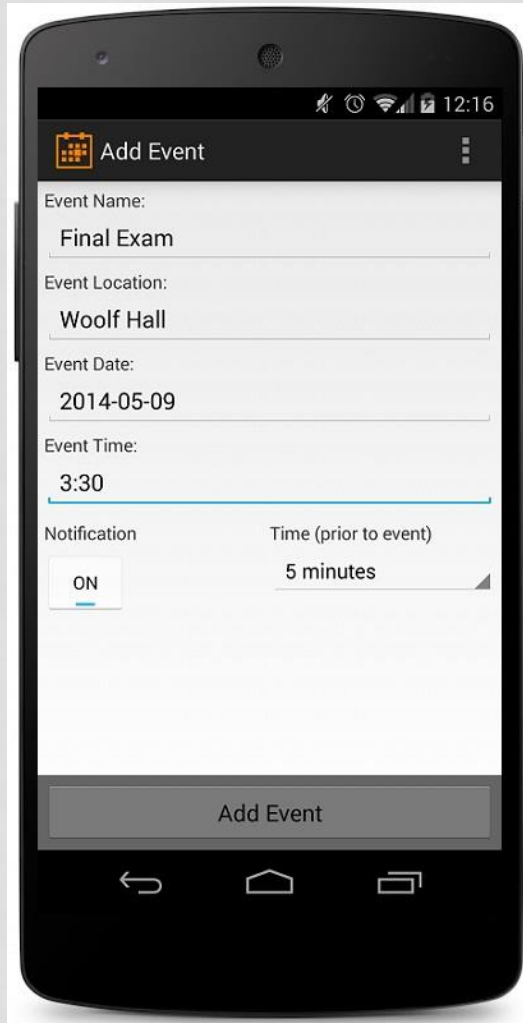

- Day View displays the List View of the timeslots of that Day. If the timeslot is available, it will be blank, else it will display the event.
- On clicking on empty timeslot, will take you to new Add Event Page which will allow you to add new events.
- On Clicking on Filled time slot page, will take you Edit Event page, where you can make needed changes.

MENU

- Clicking on top menu will open menu, which shows different options like:
 - ✓ Add Event
 - ✓ Add Group Event
 - ✓ Home
 - ✓ List Event
 - ✓ List Group Event
 - ✓ Settings.
- By clicking on each of them takes you to separate page which covers their respected part.

ADD EVENT

The screenshot shows a mobile application interface for adding an event. The form is titled "Add Event" and contains the following fields and controls:

- Event Name: Final Exam
- Event Location: Woolf Hall
- Event Date: 2014-05-09
- Event Time: 3:30
- Notification: ON (toggle)
- Time (prior to event): 5 minutes (dropdown)
- Bottom button: Add Event

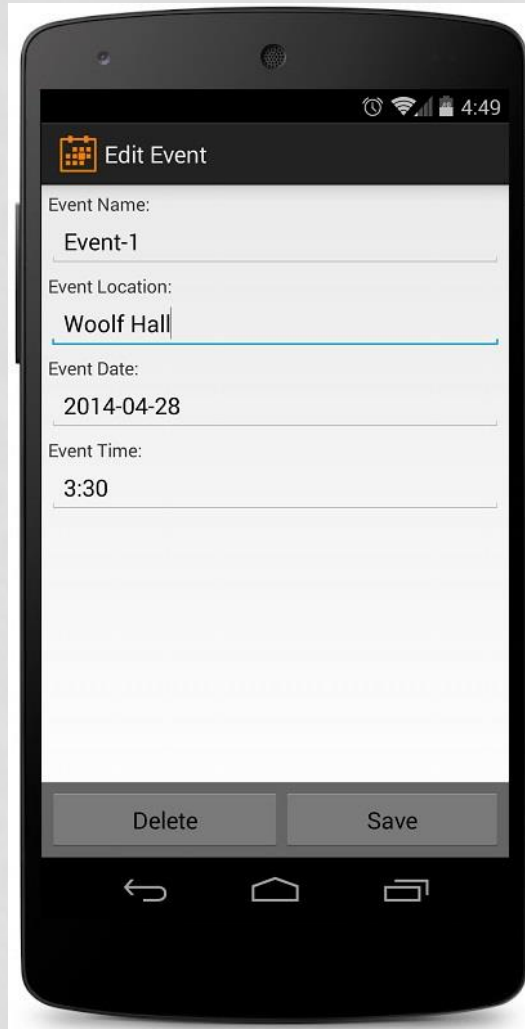

- Simple Add Event form showing empty fields to be filled:
 - ✓ Event Name
 - ✓ Event Location
 - ✓ Event Date
 - ✓ Event Time
 - ✓ Notification Toggle
 - ✓ Add Event Button.
- By filling required data, and clicking on “Add Event”, you will be transferred to the List Event Page, where you can see your added Event.

LIST EVENT

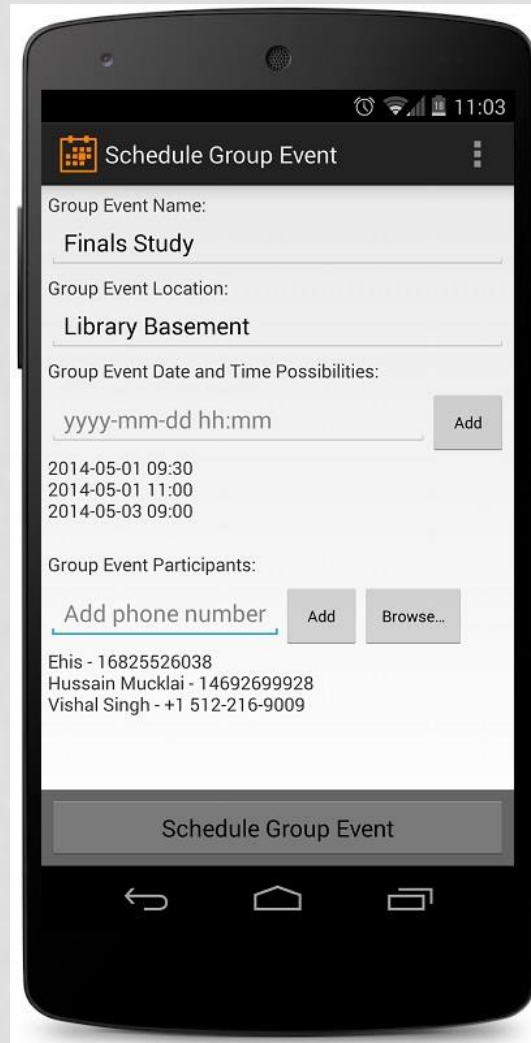

- Simple List Event page showing previously added Events in list format.
- By clicking on each list will take you to Edit Event page, where you can make possible changes or you can delete that event.
- This List will show Event name and location by the side.

EDIT & DELETE EVENT

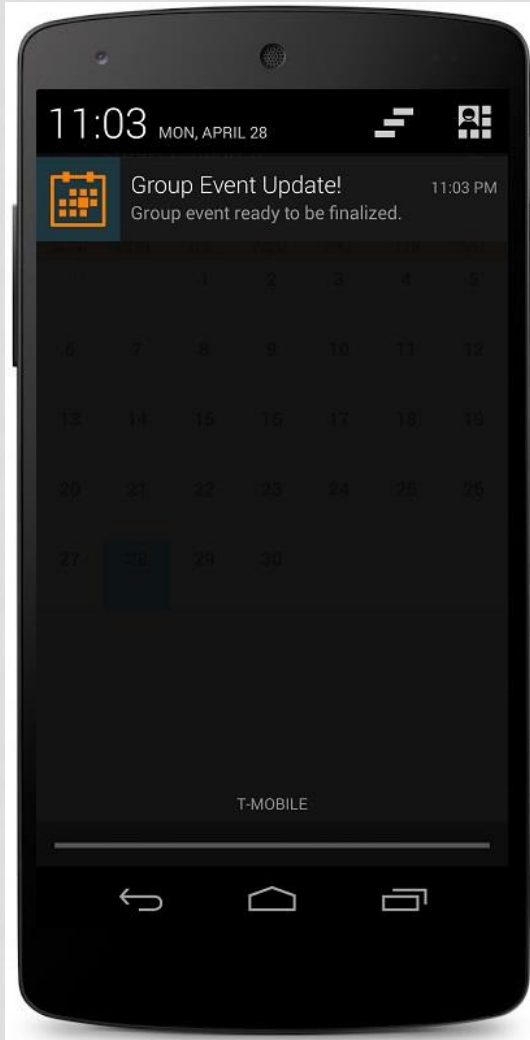

- Edit Event page showing previously added Events for which you want to make changes.
- By simply making required changes and clicking “Save”, will make the change for you and you will be redirected to List View.
- By simply clicking “Delete” button, your event will be deleted, and you no longer will receive notification if you set any.

SCHEDULE GROUP EVENT

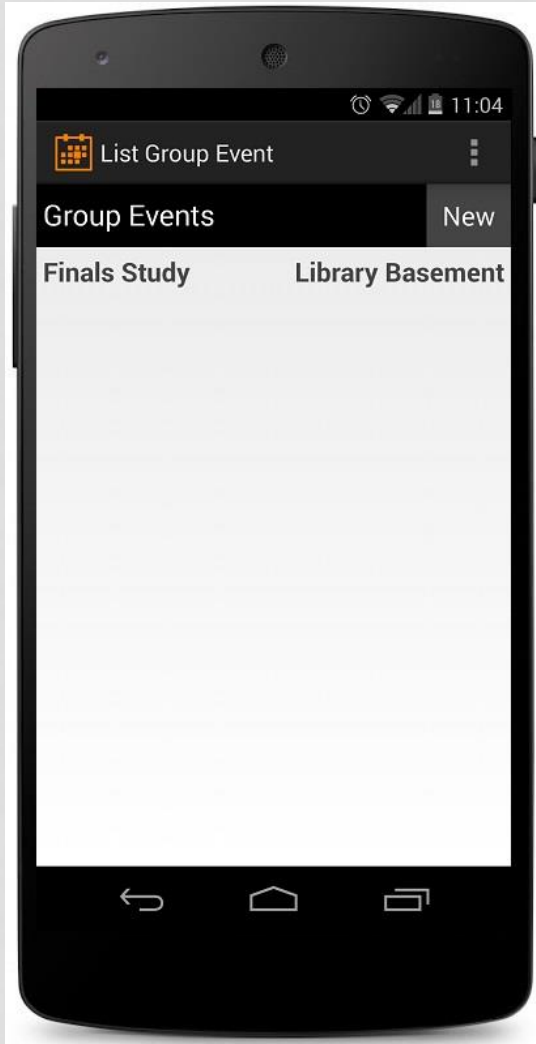

- Schedule Group Event page shows the form, in which you can enter multiple time slot, and multiple participants you want.
- Simply browse through your contacts to add multiple participants, and they will be notified.
- By simply clicking “Schedule Group Event” button, your event will be scheduled, and your event participants will be notified.

CREATE GROUP EVENT

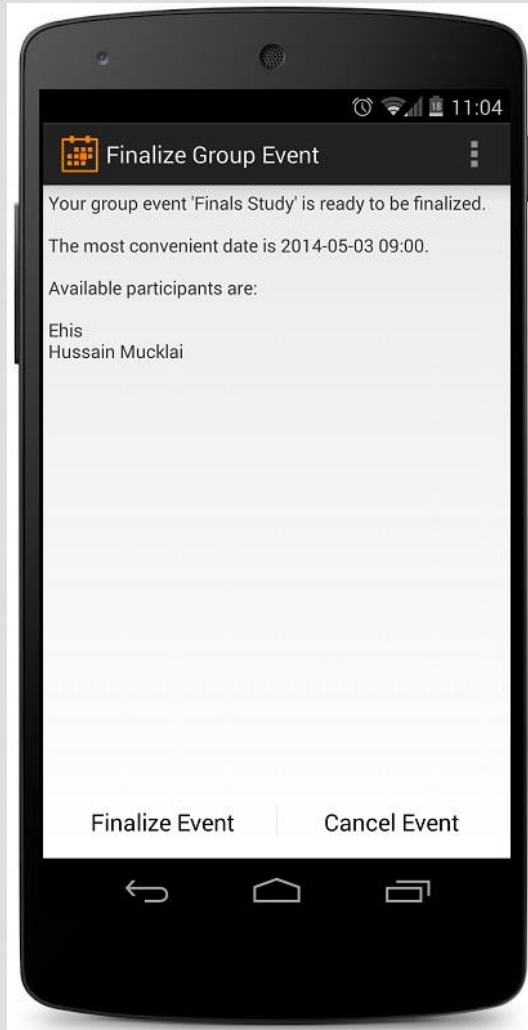

- As soon as Group Event is Scheduled, App will automatic see what participants are available to be part of based on their available schedule.
- Smart Calendar will sent you notification once your Group Event is ready to be finalized.
- Clicking on that notification, you will be redirected to Lists of Events to be finalized.

LIST GROUP EVENT

- Simple List Group Event page showing previously Group Events which are to be finalized in list format.
- By clicking on each list event, will take you to Finalize Group Event page, where you can make Finalize your Group Event.
- This List will show Event name and location by the side.

FINALIZE GROUP EVENT

- This shows the finalize page with available participants, and confirmed date from all participants.
- By clicking on Finalize Event, your event will be finalized and it will be moved to your normal Event List and notify users.
- By clicking Cancel Event, will delete the event and you no longer will notified.

We hope you will enjoy
Smart Calendar.
